*"Her music is diverse soulful and clever weaving rich and textured chords and bass lines with profound and poetic lyrics that touch the heart and lift the spirit. Sonia's music makes one feel like anything is possible and that the world is full of Optimism." The New York Optimist*

As a singer-composer, Brooklyn based Sonia Montez echoes her fascination with humanity and myriad of experiences. She is easily influenced by the likes of Ella Fitzgerald and The Beatles, but does not shy away from comparisons to her more contemporary counterparts, incorporating her adept musical phrasing and personal wit.

Sonia has shares the stage with legendary songwriter Chip Taylor, and has opened sold out shows for Matt Nathanson, Jessie Baily, Kaki King, and The Mountain Goats. Sonia is currently in pre-production for a 2nd release with producer Andrew Felluss at Radian Records.
